

Generate added value through additional benefits: AEB professional services

Document Adjustment

Application support is ensured continuously as needed to guarantee the agreed availability of the application.

Our service

AEB creates documents matching your individual needs.

You have the choice as to whether you want existing documents to be changed or if you want us to create new documents together with you.

Your benefits

In order to meet corporate identity requirements, documents must be adapted and tailored to your needs. AEB's document specialists create these highly integrated documents for you.

The options

The following options are available for document service:

- Adapting an existing document
- Creating a new document

The requirements

The system requirements must be generally met for the use of documents (please refer to the *System Requirements* description).

Please consider that there are differences between the technologies used. Should you have any questions, we will be happy to advise you.

If you want to include your logo on the documents, you must provide the logo in JPEG or BMP format in good printing quality.

The costs

Adjustment to existing documents:

Independent of the technology used:

- Document with one field adjustment:
EUR 500
Further adjustments per document page:
plus EUR 400

Creating new documents:

- Easy documents such as address labels EUR 600
- Complex documents such as packing lists, consignment notes, or proforma invoices are between EUR 1,000 and EUR 2,000. The higher the degree of customization, the higher the costs.

Prices will be fixed depending on the complexity of the document.
