

Generate added value through additional benefits: AEB professional services

---

## Installation Support: Server Components

The application base services ensure the technical operation of the individual application components.

## **Our service**

AEB installs all your server components from operating system to virus scanner and optimizes their interaction.

## **Your benefit**

Our experts assist you in making your system environment as secure and stable as possible. Additionally, they share knowledge with your IT. This means a reduced workload for your own IT.

## **The options**

If you are a customer in our high-performance data center, then installing server components is part of our standard offering. We will be pleased to come to you on-site upon request.

## **The requirements**

None.

## **The costs**

According to expenditure.
