

Generate added value through additional benefits: AEB professional services

Installation Support: Peripheral Devices

The application base services ensure the technical operation of the individual application components.

Our service

AEB installs your peripheral devices such as printers, scales or scanners and optimizes their interaction with AEB applications.

Your benefit

- Reduced workload for your IT
- Knowledge transfer
- Fast solutions for specific constellations

The options

By prior agreement.

The requirements

Agreed upon in an SLA depending on functionality. The customer usually provides the hardware after prior consultation with AEB.

The costs

According to expenditure.
